Mini Buccaneer

The **Mini Buccaneer** range is a series of miniature connectors, ideal for tight spaces. The series offers a modular design, allowing assembly with various casings, inserts, and contacts. Engineered to withstand hard environments, providing excellent resistance to dust and moisture (IP ratings). The Mini Buccaneer's compact design makes it suitable for industries such as telecommunications, medical devices, and industrial automation. These connectors deliver reliable power up to 250V at 10A and feature a secure screw thread locking mechanism. They are easy to assemble without the need for special tooling. The Mini Buccaneer has a flammability rating of UL94V-0 and positive locating keyway to prevent mis-mating. They are constructed from tough UL94 V-0 materials.

Features and Benefits:

- 1) Waterproof and Dustproof (IP68): Ensures reliable connections in harsh environments by protecting against water and dust ingress, tested at 10m depth for 2 weeks.
- **2) Versatile Contact Options:** Offers 2, 3, 4, or 6-contact screw terminal inserts and 3 or 8-contact solder/crimp inserts, catering to various power and signal requirements. Also has BNC options.
- **3) Multiple Body Styles:** Available in flex, inline, panel (two styles), and panel side entry options, providing flexibility in mounting and cable routing.
- **4) Wide Range of Cable Acceptance:** Accommodates cables ranging from 3.5mm to 9mm in diameter, providing compatibility with different cable
- **5) Positive Locating Keyways:** Prevents mis-mating, ensuring correct and reliable connections.

- **6) Sealing Caps:** Maintain the IP68 rating when connectors are unmated, protecting against environmental factors.
- **7) Leading Earth Plug:** Enhances safety with a leading earth contact on 3, 4, and 6-contact screw terminal versions, providing grounding before power connection.
- 8) Compact Design: Offers a small form factor (26mm diameter over coupling ring) suitable for applications with limited space.
- 9) Easy Assembly: Screw terminal versions require no special tools, simplifying installation.
- **10) Durable Materials and Approvals:** Constructed with UL94V-0 rated materials for flammability resistance and carries UL approval, ensuring safety and reliability. Also offers salt mist resistance.
