**Issue Date: 05 March 2026**

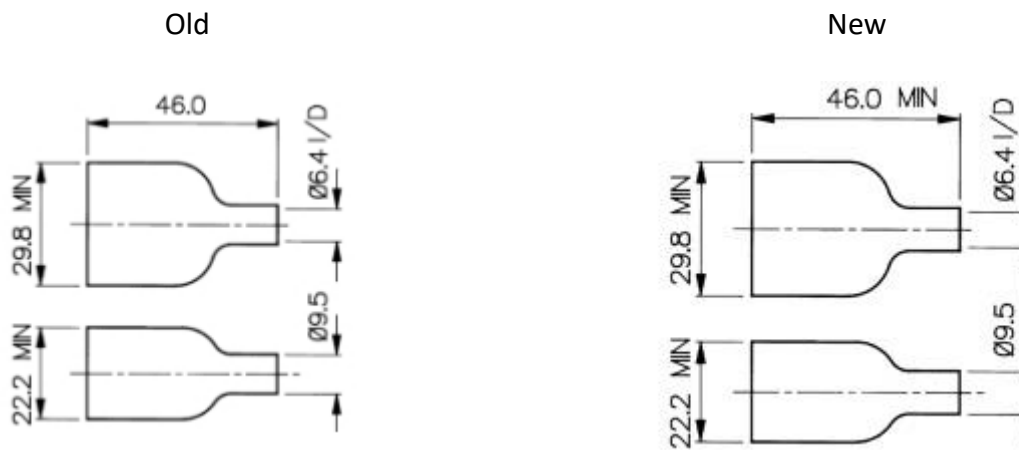

**Subject: Insulation Boot 11328 - Product Change Notification**

---

Dear valued customer,

A revision has been made to the drawing reference for Insulation Boot 11328. The overall length of the insulation boot is now specified as a minimum of 46.0 mm, and this dimension has been included in the product datasheet.

This revision has been implemented to eliminate potential ambiguity in the previously published drawing and to enhance clarity regarding the dimensional specifications. Please note that this update does not constitute a change to the design, form, fit, or function of the product. All existing and currently supplied parts remain the same; the revision is solely intended to clarify the dimensions of the product as supplied.

Regards  
Bulgin
